DON KUZENKO, DIRECTOR OF TRAILS, HALIBURTON FOREST, ADDS:

This year, the Haliburton Forest Trail Race was the best ever. The trails were in the best shape I've seen them in my nine years of volunteering. Unlike last year, when the trails were extremely wet, this year the runners would have had to try hard to get their feet wet (well, except for a couple of spots).

The week prior to the race I set the trails accompanied by Gary Black, who did a fantastic job of trail maintenance - getting rid of trippers, opening up sight lines. I think I used a record number of flags (certainly more than 2000 in 25 miles) and based on the comments I got from a number of runners, it paid off. Most said it was marked the best they had ever seen. I certainly appreciated the comments and it makes all the work worthwhile.

The aid stations were staffed by a tremendous group of enthusiastic volunteers and once again the appreciation showed and the kind words of the runners were very much appreciated. For my part, I don't know if I've ever had such a hard working and reliable group at Margaritaville/Aid Station #2.

The Medical tent was busy as usual and Cory and Jenn were certainly responsible for the successes of more than one runner as well as the comfort and safety of many.

Thanks to Helen, the runners and crews, and the volunteers, the Haliburton Forest Trail Race proved once again to be one of the highlights of my year. I am looking forward to being involved for many, many more. ■
